### And What Have You

By BOB CRAIG

Our family returned Sunday from a long weekend in El Paso where we attended the 40th annual convention of the West Texas Press Association. We enjoyed El Paso but found the 800-plus mile trip a little too far to make even on a long weekend.

We heard some outstanding speakers on such subjects as drugs and narcotics, the water pollution problem but the most striking program was on our prisoner of war problem.

Major Joe Carpenter of the U. S. Air Force, one of nine Americans to be freed by the North Vietnamese, made a very stirring appeal for the support of the people of this country to aid in getting Hanoi to at least give the names of those men held in their camps.

Maj. Carpenter pointed out that there are over 1500 prisoners of war or men missing in action with only about 400 of these known to be in enemy hands.

As Maj. Carpenter so ably pointed out, the real heroes of this war are the many families here at home that do not know if their loved ones are dead or alive. Some of these men have been missing for over five years and their families still do not know their fate.

Maj. Carpenter seems to firmly believe that a ground swell of public indignation in this country could force Hanoi to at least supply a list of names of those captured.

It is inconceivable to us that anyone in this country or anywhere else in the free world could oppose any effort to aid these men and regardless of one's view of the war everyone should be interested in the human treatment of these men and their families.

Listed below are several ways that the people at the grassroots of this country can help:

Send a public opinion message telegram (15 words for \$1.00) to your two Senators and Representative in Congress urging them to make the release of POW's the highest priority item during the next session of Congress.

(SAMPLE TELEGRAM)  
"URGENTLY REQUEST RELEASE OF PRISONERS OF WAR BE GIVEN HIGHEST PRIORITY THIS SESSION OF CONGRESS"

A letter or postcard can take the place of a telegram.

Write your own newspaper editor and the Editor, New York Times, 229 West 43rd Street, New York, 10036, and tell them the message you have just sent to your representatives in Congress.

Send a letter or postcard to United We Stand, Box 100,000, Dallas, Texas, 75235, expressing your concern for the treatment of American Prisoners of War.

(SAMPLE LETTER)  
I am deeply concerned about the inhumane treatment of American Prisoners of War being held in North Vietnam, South Vietnam and Laos. The best interests of peace can be served by according these men the protection of the Geneva Convention. Write a letter like the sample above and send it to: His Excellency, The President Democratic Republic of Vietnam Hanoi, North Vietnam (Airmail Postage 25¢) (Air-O-Gram Form Letter 13¢) Minister Xuan Thuy Delegation of the Democratic Republic of Vietnam Paris, France (Airmail Postage 20¢)

Ask your church leader to deliver a sermon on what he and all the organizations he represents, are doing to help the American Prisoners of War in Southeast Asia. This request can most effectively be made in writing.

All the wives and families of the prisoners will thank you most sincerely.

THIS IS HOW IT'S DONE—Tim Jones, Hamlin High School band director, in center of back row, shows the drum section the proper technique during full band rehearsal of "Spinning Wheel." Summer band school concludes Friday after a week of hour marching sessions, section rehearsals and full band rehearsals.

## Couple Visits Church In Japan Built In Memory of Daughter

Mr. and Mrs. James C. Lambdin of Abilene recently visited in Chiba City, Japan, where they visited the Melissa Lambdin Memorial Church which the couple had built in memory of their Japanese daughter following her death in February 1966.

Mrs. Lambdin is the former Avelene Murphree, daughter of Mr. and Mrs. W. H. Murphree. While her husband was stationed at Johnson Air Force Base, Japan, in 1958, they met and fell in love with Melissa and her older brother Bruce.

The children were from a broken marriage and the Lambdins adopted them after the children became homeless. Melissa was only two months old at the time.

A few years after the adoption, the Lambdins returned to the United States. While they were at San Antonio, Melissa developed asthma. When they moved to Abilene her condition worsened and the doctors advised that she be hospitalized in Albuquerque, N. Mex.

After a lengthy illness she died in an Albuquerque hospital at the age of 7½.

After her death the Lambdins started working with the Church of the Nazarene to build a memorial to Melissa in Chiba City, her birthplace.

A special fund of the church bought the land and the Abilene couple paid for all the construction of the buildings. The church was completed last October.

The Rev. Mori, who at the time was chaplain of the Japan Christian Junior College of Chiba City, helped them

with the planning and details. He is now the pastor.

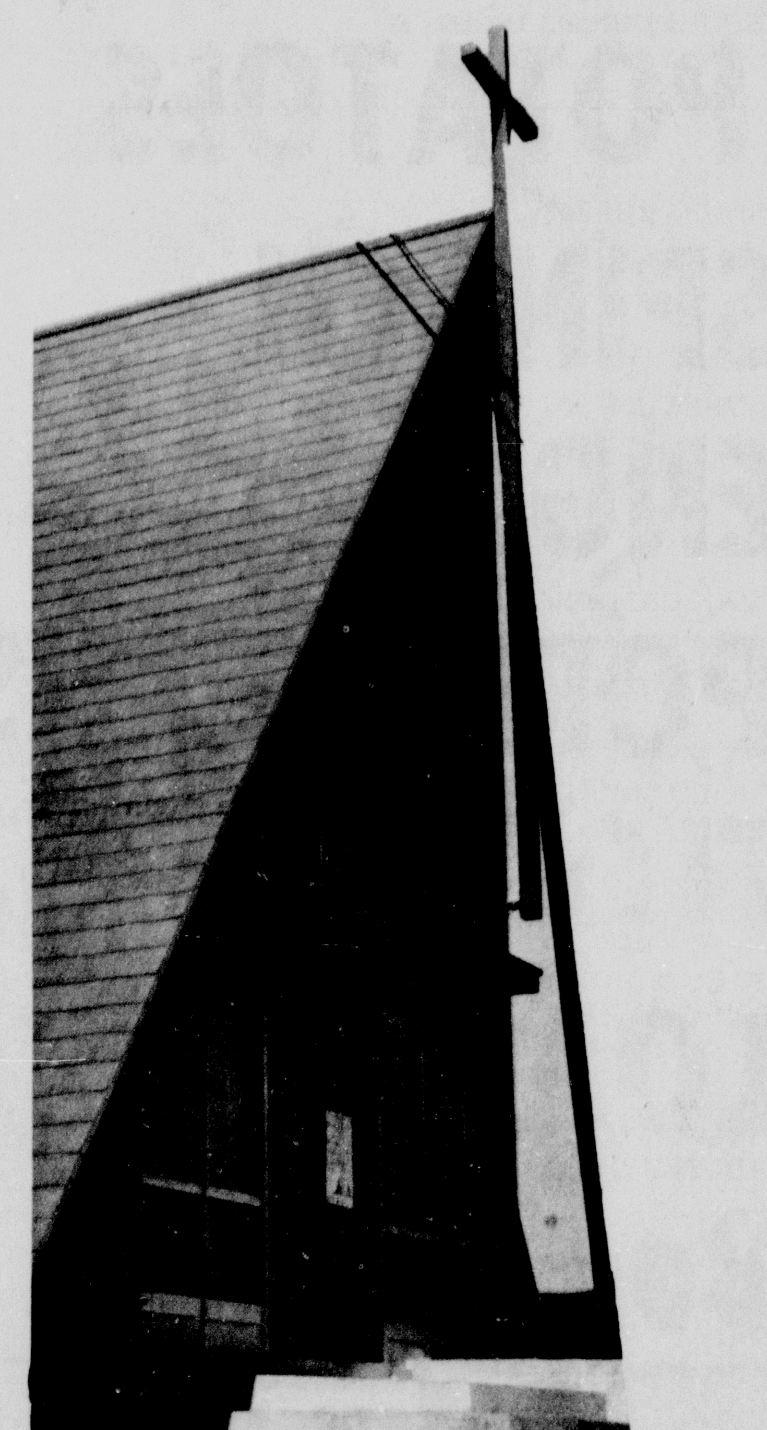

Mr. and Mrs. Lambdin and Bruce, now 14, spent two weeks in Japan this summer. He said, "My wife and I were pleased to see the church in Chiba City and we are grateful to know that we have some small part in bringing Christ to the people of Japan."

Lambdin is retired from the Air Force and teaches in Abilene High School. He also

has business interests in Abilene, including a partnership in an Abilene car dealership. He is a graduate of Hardin-Simmons University.

Mrs. Lambdin, a graduate of Hamlin High School and Bethany Nazarene College, Bethany, Okla., is a speech therapist employed by Abilene Public Schools.

The family lives at 1738 Delwood and attends the First Church of the Nazarene.

CHURCH BUILT AS MEMORIAL—As a memorial to their Japanese daughter Mr. and Mrs. James C. Lambdin of Abilene built the Melissa Lambdin Memorial Church in Chiba City, Japan, her birthplace. Mrs. Lambdin, the former Avelene Murphree, daughter of Mr. and Mrs. W. H. Murphree, and her husband and son, 14-year-old Bruce, Melissa's brother, returned to visit Japan this summer and visited the church.

## AN EDITORIAL—

### YOUR HELP NEEDED

As most of our readers are well aware of, Hurricane Celia, which hit the Texas Gulf Coast with devilish fury on Monday night, Aug. 3, did extensive damage in Corpus Christi and neighboring cities and towns in the coastal area.

There is now and will be for some time need for money (\$6 Million estimated).

The newspapers of Texas through the Texas Press Association are being urged to publicize their plight and ask for donations to your local Red Cross, earmarking the funds for relief in the disaster area.

An effort is being made to obtain \$1 Million of the \$6 Million in Texas alone.

The money may be sent to your county Red Cross chapter or it may be sent direct to the American Red Cross, Box 7844, Austin. Your county will be given credit either way.

Small Business Administration and Farm Loan Administration both are helping with small loans to those able to borrow. However, financing, in the majority of the cases, must come from the American People.

Your help is urgently needed and will be greatly appreciated.

A LIBRARY OF OVER 2,000 CLASSICS  
IN FOUR VOLUMES

MASTERPIECES OF WORLD LITERATURE IN DIGEST FORM, edited by Frank N. Magill

First Series Second Series Third Series Fourth Series

This group of digests has been almost twenty years in the making. School and public librarians have been "handing out Magill" many times a day, and the books are equally valuable for the home reference library and for high school and college students. The series is now complete.

Within each volume the titles covered are arranged alphabetically (a table of contents shows at a glance what is included). In the back is an author index, and in the new Fourth Series there is a cumulative index which makes the whole group simple to use. Each entry gives the background of the book covered—when published, the locale, a list of characters, a critique, and a synopsis. For books which cannot be synopsized, essay-reviews are used, in themselves critiques. The concise summaries are prepared by first-class writers, mostly college English teachers, and all entries are carefully rechecked for accuracy.

Each volume contains about 1,200-1,300 pages. Virtually all literature studied in high school and college courses—plus many other titles—is included.

*First Series:* In this original volume there are plot stories of 510 famous novels, plays, tales, and epic poems. The carefully selected list covers more than twenty centuries of tales that have delighted mankind—from the Golden Age to the Atomic Age, from Beowulf to Bambi.

*Second Series:* Five hundred additional sequence-by-sequence plot stories from the world's finest literature—novels, drama, and narrative poetry, selected for popular as well as classic appeal. The range here is from Aeschylus through Maria Edgeworth to T. S. Eliot and Alberto Moravia.

*Third Series:* Plot stories of 277 famous novels and plays and essay-reviews of 223 works of philosophy, poetry, and other classics. In this volume philosophy and other non-narrative works appear for the first time. The range is from Hesiod to Samuel Beckett, with stops in between for Bacon, Carlyle, Cicero, Petrarch, and François Villon, to name only a few.

*Fourth Series:* Besides the valuable cumulative index for all four books, this volume rounds out the series for balance. Fiction and drama are included among the 500 titles, with stress on modern writers, but there is also emphasis on poetry and nonfiction. Faulkner, Purdy, Camus, Tolkien, and Nabokov are a few of the novelists. There are the essays of Thoreau, Hazlitt, and Virginia Woolf, the journals of Lewis and Clark and of André Gide, the letters of Mme. de Sévigné, Emily Dickinson, Pliny the Younger, and D. H. Lawrence, plus many other favorites old and new.

THE HAMLIN HERALD

FROM THE FILES . . .

FORTY-FIVE YEARS AGO  
(August 14, 1925)

When it gets so wet and so muddy that a bunch of picnic boosters gets "stuck up," it's going some. But this is what happened to our boosters Monday. They started out about thirty-five cars strong, with banners and hopes high for a gala day, but before night their banners were crumpled, their feathers had flumped and hopes had faded. Darkness found about fifteen cars "all stuck-up and rearing to go," in the lane about five miles southwest of Sagerton and seven miles northeast of the city of Pastura. Think of it. Plenty of cars, plenty of gas, but muddy and tired and sleepy, nothing to eat, nothing but mud and mosquitoes and frogs. This is a brief summing of their pitiful plight. No telephones, no houses, just darkness. Daylight found that three cars on the rear had backed out and came around, reaching Hamlin about sunup. Some walked down to Pastura and took the train, the rest stayed there all night, a rescue party went out early Tuesday to drag them out. Trucks, chains, ropes and block and tackle, with a great supply of sandwiches and coffee, reached them and one by one, they came in, drabbled and weary, but every blooming one had smiles on their faces. "Stuck-up" that's what happened to all who kept on the way after leaving Haskell. At that place several turned back, but they too had mud and water and then water and mud before reaching Hamlin. Some switched off at Sagerton and came through high water in the Swenson pasture. It is said that a cloud-burst took place between Haskell and Rule. One thing about that crowd, they played games, and everyone came back wishing for that hard surface road to be built AT ONCE. It is reported that several close call accidents occurred. It is a happy result that no one was hurt, for there is said to have been several cars in ditches.

TWENTY YEARS AGO  
(August 11, 1950)

Local Future Farmers of America chapter officers held their first annual officers training school last Friday, Saturday and Sunday at Possum Kingdom Lake. Purpose was to prepare themselves to be more competent officers for the coming school year.

Topics taken up during the school were: planning the annual program; work for the local F. F. A. Chapter; duties and responsibilities of chapter officers; practicing parliamentary procedure and discussing the plans for improving chapter meetings.

The group also practiced opening and closing ceremonies for chapter meetings and discussed the purchasing of new equipment for the chapter.

Swimming, fishing and boating provided recreation. Cabin and fac-

ilities were furnished them by Paul Bryan.

Those who attended the school were: David Ford, president; Clark Hewitt, first vice president; Marvin Johnson, secretary; Glenn Smith, parliamentarian; Joe Rosenbaum, reporter; Donald Strain, historian; R. L. Goodgame Jr., sentinel; and T. C. Blankenship and H. V. Eades, advisors.

Burford Bingham of Hamlin was one boy among 50 who left Monday morning of this week for an expense-free two-day trip to San Antonio given by the Abilene Reporter-News, Abilene.

The boys were picked by points on salesmanship. The group visited Breckenridge Park, old missions and spent Monday night at a hotel in San Antonio. They returned Tuesday at 9:00 p. m.

TEN YEARS AGO  
(August 11, 1960)

Layne B. Blankenship, fireman USN, son of Mr. and Mrs. T. C. Blankenship of 52 S. W. Ave. H., is serving in the Training Administrative Department at the Fleet Anti-Submarine Warfare School, of San Diego, Calif.

He reported to San Diego July 1 from the amphibious assault ship USS Princeton.

Before entering the Navy in September, 1959, Blankenship graduated from Hamlin High School.

With the football season only three weeks away, the Pied Pipers will start workouts Monday. They will meet the Cisco Lobos at Cisco, September 2, to get their schedule underway.

The boys will start practice with fall camp, at which time they will be quartered at the field house and take their meals at the cafeteria. They will have two workouts each day with the camp ending Saturday morning.

Coach D. C. Andrews is expecting some 36-37 boys out for the camp, with four offensive and five defensive starters back from last year.

The boys will report to school Sunday night about 9:30 and the camp will get underway Monday morning.

In preparation for the football season, the high school coaches attended the Texas High School Coaches Clinic this past week in Dallas. Coaches attending from here were Andrews, Jimmy Vaughn, Ed Farmer and Neil Laminack.

After fall camp, two-a-day practice sessions will continue until the start of school.

Although the year's cotton is later than usual, a good yield is expected in this area.

There is some insect damage to the crop but for the most part, the insects are being controlled.

The first bale is expected to come in the latter part of this month if weather conditions are favorable. Last years first bale, ginned at Hamlin Farmers Co-op Gin on August 24, was brought in by O. L. Cohorn.

The skyline of New York, our largest city, is familiar to everyone. New York has buildings unmatched anywhere in the world, and also leads the nation in many industries. This great city typifies the success and abundance throughout our nation. God has blessed our nation.

*"Blessed is every one that feareth the Lord; that walketh in his ways. For thou shalt eat the labour of thine hands: happy shalt thou be, and it shall be well with thee." Psalm 128:12*

ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Neinda Philosopher Tries to Start A New  
Fashion In the Length of People's Lawn Grass

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One claims he's trying to set a new trend, but there may be other explanations.

Dear editor:  
I had just settled down on my front porch yesterday reading a newspaper and had already finished one article reporting Congress was about to set a limit of \$55,000 per farm in government payments next year which I thought was fair, I believe I can just about meet expenses with that amount, it sure beats what I'm getting now, and had wondered to myself, after hurriedly reading that Chet Huntley, on retiring as a television newscaster to open up a tourist attraction in Montana, said he found astronauts boring, if he'd find tourists real exciting — the one that came by this Johnson grass farm the other day asking directions to Abilene didn't seem like he'd be too interesting to know permanently — anyway, to get on with this sentence which is getting out of hand, but take

a deep breath and keep going. I was just getting well into the newspaper when a car drove up and a neighbor got out and waded through the grass and sat down on the

steps and asked: "When are you going to cut your lawn? It's getting too shaggy to walk through."

"When are you going to come abreast of the times?" I asked him.

"Whatta you mean?" he demanded.

"It's the new style in lawn grass," I explained. "Us high fashion people are letting it grow longer this year. Everything is longer this year. Hair is longer. Sideburns are longer. Dresses are longer. Wall Street brokers' faces are longer. Anybody with a crew-cut lawn just ain't with it. This is 1970, man."

"Uh-huh. Well, I guess I'd better be going," he said, and got up and left.

He never did say what he came for.  
Yours faithfully,

## Hurricane Causes Only Minor Loss To Youngbloods

Mrs. Joe Youngblood and son, Joey, visited friends in Hamlin during the early part of the week. They recently moved from Hamlin to Corpus Christi and were in their sixth floor apartment on Ocean Drive during Hurricane Celia.

Mrs. Youngblood said that only one window was broken in their apartment. They suffered water damage but parts of the building were damaged extensively.

Mr. Youngblood had planned to accompany them to Hamlin this month for a visit but his office building that is constructed of concrete and glass was severely damaged and he had to remain for clean-up operations.

Mrs. Youngblood will teach English in Gregory Portland High School. She said that school opening may be delayed some because of the hurricane and in some cases half day sessions may be necessary while damage is repaired.

## As It Looks From Here ...

Omar Burleson, M. C. 17th District, Texas

WASHINGTON, D. C. — The National Health Crisis has been discussed heretofore and from all indications it may get worse before it gets better. There is, however, concentrated attention being given to meet the situation. In spite of the high cost, the overcrowding of facilities, and shortage of technical help connected with illness, more people are receiving better care than ever before. But there are deficiencies which still have to be met for certain hospitals to qualify under the Medicare Program.

Special efforts are being directed to provide better nursing care. We probably have some of the best nursing homes to be found anywhere but from reports there are some pretty bad ones.

One of the great unanswered challenges is the shortage of nurses and yet small hospitals in many of our small towns are being denied medicare benefits because they do not have, and cannot afford to have, at least one registered nurse on duty for each 8-hour shift.

Many of our older and smaller hospitals do not meet regulations under the Medicare safety standards set by the program. In many instances these physical facilities can be improved to the extent of qualifying but no one wants to spend the money necessary if they are unable to have at least three registered nurses on duty over a 24-hour period.

In Texas alone there are some 170 hospitals which may have their medicare benefits terminated if they have to comply with the unbending strictness of the rules and regulations laid down by the Department of Health, Education, and Welfare. Like most, if not all, Federal programs, administrators must "go by the book" but the book itself in the form of rules and regulations, is forcing the closing of some small-town hospitals. This means that elderly patients would have to go to a hospital located in some larger town. Elderly patients accustomed to local care just simply don't want to leave their community.

Everyone agrees that any hospital or nursing home should have the best and most modern care available but when regulations and rules leave no hospital at all people are understandably upset. There should be more time for modernizing buildings to meet proper safety standards but under the rules this still leaves the requirement for nurses.

Licensed Vocational Nurses do a very fine job and could well, under the general supervision of doctors and registered nurses, fill the practical needs. There is an area for common sense to be provided and particularly until reasonable deficiencies can be met. A hospital less than two years old in South Texas faces the prospect of being denied admission to the Medicare Program because of the requirement of equipment which probably will not be used and lack of nurses which it cannot obtain.

NOTE: Congressman Omar Burleson's staff advises that he has introduced legislation to amend the Social Security Act which would exempt hospitals having 50 or fewer inpatient beds from the requirement of full 24-hour registered nursing services and his legislation also calls for the relaxation of such other requirements when applied to

institutions having fewer than 50 inpatients, as requiring an autopsy being performed on 20 percent of deaths occurring in such hospitals.

**YOUTH CHOIR DUE AT NORTH CENTRAL**—The Youth Choir of the First Baptist Church, Breckenridge, will present their "Testimony in Song" concert at the North Central Baptist Church Sunday, at 7 p.m. announces Rev. Harold D. Fleming, pastor. The youth choir is made up of junior high and senior high students and they provide the music for their

home church each Sunday evening. The director, Emmet Carson, minister of music and youth says that these young people will give their testimony for Christ through prayer, scripture, testimony and song. The public is invited to come and hear the choir and give them a big welcome to Hamlin, says Rev. Fleming.

**AUSTIN.** — Soaring state budget requests led the Legislative Budget Board to urge all agencies to hold spending in 1972-73 to essentials.

Lt. Gov. Ben Barnes, Board chairman, sounded the warning that a "critical financial condition" looms which demands "economy-minded government."

In a letter directed to state agencies, Board advises that they submit suggestions at an early date on where fat can be trimmed from their appropriations requests.

"Reluctant" fat trimmers should be invited back for a second hearing before the the Board, Barnes said.

Requests already submitted reportedly exceed the expected income for the 1972-73 biennium by more than \$1 billion.

Estimates of the amount of the 1971 tax bill which will be needed to support adequate services for state agencies in the face of expanding demands still range from \$350 to \$700 million.

Some ranking legislators fear a revenue bill of that magnitude will be virtually impossible to pass in view of the fact that lawmakers voted \$350 million in new taxes only last year.

Budget Board's recommendations on spending usually are more conservative than those finally adopted by Legislature. However, they serve as take-off points for the House Appropriations Committee and Senate Finance Committee deliberations.

**AUTO INSURANCE DELAY** — Texas motorists get a hint of good news: they

may escape a raise in auto insurance premiums altogether this year.

Charles D. Mathews, a member of the State Board of Insurance, raised hopes of that in testimony before the interim Senate committee studying rates.

Mathews also predicted the Insurance Board will come up with a rate formula that includes company from investments, a longstanding point of debate.

"I think the companies may be sorely disappointed in the Board," said Mathews. "We may not get around to an auto rate adjustment in 1970. There are just so many hours in a day."

Company spokesmen earlier indicated they were hoping for a 15 to 20 per cent hike this year. A delay in Insurance Board hearing dates made postponement of any increase until after November virtually inevitable. A 9.9 per cent hike was granted last year.

Critics of a further increase told the Senate Committee that rates went up twice as high as the general cost of living in the last decade. Some recommended group coverage on auto insurance.

**WELFARE OVERHAUL PROPOSED** — Senate Welfare Reform Committee has recommended a sweeping overhaul of the system, including placing responsibility for Public Welfare Department administration in the hands of the governor.

At the same time, Committee endorsed a proposal that Welfare Department electronic data processing

equipment be totally updated under a private contract to save manpower, time and money.

Study panel proposed abolishing the Texas State Board of Public Welfare and substituting an advisory panel to the governor. Also the name of the agency would be changed to Department of Human Resources under Committee recommendations to be submitted to the Legislature next January.

Computer experts estimated new electronic data processing equipment could save the state an addition of 2,600 people in the Welfare Department at a cost of \$8.5 million a year.

In the second day of hearings, Committee was told that administrative costs alone of the Medicaid Program were \$11.6 million in Texas during less than three years. Committee recommended an "experienced executive having an insurance background" be employed to coordinate Medicaid functions now scattered among several branches of the Welfare agency.

**SPECIAL OIL MEETING ORDERED** — World oil crisis and Hurricane Celia prompted a special meeting of the Railroad Commission this week (Aug 10) to reassess August oil allowable.

Commission earlier had set the market demand factor at 62.9 per cent for August, which would produce about 3,220,518 barrels of oil daily.

Since that action, Commission Chairman Ben Ramsey said, some companies have indicated a desire to buy additional Texas crude. On the other hand, said Ramsey, Hurricane Celia complicated movements of crude from South Texas and some West Texas fields to tidewater.

Commission invited crude purchasers and transportation executives to its Monday (Aug. 10) meeting "to assess effects of Hurricane Celia on the movement of crude, as well as the logistical problems of moving crude from other Texas areas to Gulf Coast and to markets elsewhere."

Closing of Tapline, a major oil line from the Middle East to the Mediterranean, plus high tanker rates for transporting oil around the southern tip of Africa to Western European and East Coast markets substantially raised the need for Texas crude, Ramsey noted.

**LAND RECOVERY SOUGHT** — School Land Board requested Atty. Gen. Crawford C. Martin to see if a lawsuit is feasible to recover state land from the Calhoun County Navigation District.

Land Commissioner Jerry Sadler estimated that the district bought for \$1 an acre as much as 20,000 acres in state land it doesn't need for its functions as a navigation district.

Some of the land was re-sold to private developers, including the Key Allegro subdivision near Rockport, and is valued at \$33,098 an acre now.
